

# LIV

SUSTAINABLE  
TEXTILES

‘Liv’ is Danish for ‘life’. To us, Liv means living whole-heartedly. Join us at Liv, where our commitment to sustainable, sensual design is woven into every thread of our work. Through close collaboration with artisans, we craft sensually designed interior products that echo our profound respect for nature and the world we inhabit.

Dear customers,

Join us on a gentle journey that takes us right into the heart of the coming Autumn | Winter 2024 season and let yourself be enchanted by a collection that will wrap you warmly in the cold season and conjure up a cosy atmosphere in your home.

In these turbulent times, we want more peace and quiet in our homes. We long for a feel-good place and this is exactly what we create with soft natural colours in combination with cream and beige. To make sure it doesn't get boring, we work with different materials and an exciting feel: plush woollen cushions, coarse linen and cotton textures as well as elegant velvet.

Our new rugs are made from partly recycled and partly new mulesing-free wool in dreamy hand-woven patterns. The SWIRL rugs, on the other hand, are high-pile with a playful pattern. If you want to be transported back to the 60s and set colour accents, opt for the orange eye-catcher ACOUSTIC. Once more, the hearts of our jute lovers will beat a little faster this season with our new LULU and FIR models, both of which have a graphic design with a colour play of neutral and stronger tones.

Anyone who, like us, likes to wrap up in fluffy blankets in winter will be delighted with the DOT blanket, which is made in Austria from recycled cotton. The blanket comes in three trendy colour variants and convinces with the fluffiest feel.

With these carefully selected materials that provide extra cosiness, the cold season can come. Have fun discovering the new collection!

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Tina Mirza', written in a cursive style.

Tina Mirza  
and our liv interior team

# Wool Rugs

A touch of lightness and at the same time a lot of warmth and a sense of shelter: that's what wool symbolises for us. It is a wonderful, sustainable natural product with a feel-good factor. For our wool rugs, we looked for wool that is compatible with our ethical values. The hand-woven models are made partly from recycled and partly from new, undyed Indian wool. The hand-tufted rugs are made from mulesing-free New Zealand wool. In addition, our wool rugs are GoodWeave certified to combat child labour in the textile industry and to ensure fair labour relations for our weavers.

Important information at a glance:

- Sustainable natural product
- Partly recycled wool
- Made by hand
- GoodWeave certified
- Suitable for indoor use
- Care: Professional cleaning

# Jute Kelims

Jute is a wonderful material, not only because it creates a gorgeous, natural look, but also because it is a rapidly renewable natural resource. The jute we use for our rugs is harvested in India and processed there. It is dyed with natural colours to create soft, dreamy shades. The jute is then woven by hand into the most beautiful rugs by our skilled weavers. Our designs are sometimes floral, sometimes graphic, sometimes playful, sometimes simpler, but always breathtakingly beautiful!

Important information at a glance:

# Recycled Cotton Textiles

Some days we just want to snuggle up under our cosiest blanket to make ourselves as comfortable as possible during the grey season. Our recycled cotton blankets are perfect for this, as they are the softest blankets we have ever had in our collection. They are made in Austria from recycled cotton and receive a special brushing at the end of the production process, which gives them that velvety soft texture. The two designs, floral-inspired or graphic, are available in several trendy colour variations. They are not only an absolute eye-catcher on the sofa, their extra-large format also makes them ideal for decorating the end of the bed.

Important information at a glance:

- Recycled material
- Made in Austria
- Large format: 150x200cm
- Cosy and soft
- Care: machine washable at 30°C on a gentle cycle

## Recycled cotton textiles made in Europe

A well-rounded affair

Our enchantingly delicate throws come with a circle design that can be perfectly combined with all in-

terior styles. The best thing about it: the throws look sensational from both sides.

# Cushions & plaids

We are well aware that cushions and blankets are not a necessity, but they do make life that little bit cosier. Not only do we want to increase the cosiness factor, but we also want our cushions and blankets to be pretty little accents to brighten up the home. We work with different materials and different colours, which can all be wonderfully combined with each other, as the colour nuances in the different items match each other. For those who prefer muted colours, we recommend combining different textures to create an exciting look and feel. Our cushions and blankets are handmade in India because we want to support and preserve the craft as a cultural asset so that it can be passed on to future generations.

Important information at a glance:

- High-quality materials, partly in organic quality
- Can be combined with each other
- Made by hand
- Care: wash at 30°C on a gentle cycle, do not tumble dry

## Cushions and throws

A mix of textures

These cushion covers come to please both the eye and the skin. Natural materials such as organic cotton or mulesing-free New Zealand wool, sometimes with a coarse feel, sometimes high-pile and then again evenly patterned or with a special design. We love combining these cushions with each other. The fact that they are calm in colour means that the calm look is maintained even when different textures are combined.

## Cushions and throws

Colour blocking

What is the best way to deal with textile surpluses? You simply make new designs out of them! This is how our BLOCK cushion covers were created and we love their timeless design as well as the cheerful colours. The velvet cotton fabric we have been working with for years is super cosy and its colours have a softly iridescent effect depending on the light. The cushion covers can be combined wonderfully with our other velvet cushions.

## Cushions and throws

A new classic

We have modernised our classic and given it a fresh touch: The popular velvet cushion covers now come with piping in the same colour. There are also a few enchanting new colours, which, as always, go really well with the other items in our velvet collection.

# Recycled Pet Textiles

Turning old into new! Our indoor | outdoor collection is made from 100% recycled PET bottles. How does it work? Old PET bottles are shredded, melted and moulded into a wafer-thin thread. This thread is very robust and at the same time we manage to produce amazingly soft textiles with it, so that we are asked again and again whether the material is really plastic.

The PET yarn is used to make beautiful cushions and blankets by hand, which not only beautify the interior, but also the terrace, balcony or a picnic scene. The designs range from simple colour gradients to graphic designs and colourful eye-catchers. The different colour components can be found again and again in the various designs so that the blankets and cushions can be combined with each other as desired.

Important information at a glance:

- Recycled material
- Hand-woven
- UV-treated colours
- Suitable for indoor and outdoor use
- Care: machine washable at 30°C, do not tumble dry

## PET outdoor cushions and throws

Candy colours

Our TAAPIRI and ELEMENTS series in candy come in soft pink shades with yellow or orange accents.

Combine these with our other items in the same shades.

Green retro vibes

Make a statement with our gorgeous outdoor textiles in green and purple. Spice it up with some oran-

ge, or if you like it a little calmer, but don't want to do without the retro vibes, go for our earthy tones.

# Recycled Cotton Rugs

We love to give a pre-loved item a new life: Our recycled cotton rugs are made from yarn produced from old clothing. The used garments are sorted by colour, zips and buttons are removed and then shredded. The shredded fibres can then be used to make new yarn, which our talented weavers use to weave beautiful rugs. Neither chemicals nor additional colour are used in the production of the yarn. After weaving, the rugs are washed and air-dried. Whether plain-coloured, in a Scandi design or with a colourful pattern - our rugs come in a variety of gorgeous designs and are available in up to five sizes. If necessary, we are also happy to produce customised sizes.

Important information at a glance:

- Recycled material
- Not re-dyed
- Hand-woven
- GoodWeave certified
- Care: Machine washable at 30°C, do not tumble dry

# Tufted Cotton Rugs

Too cosy to be true: Our fluffy high-pile rugs are lovingly handcrafted in India. They are made of 100% cotton - The OEKO-TEX® certificate recognises textiles that are free of harmful substances and manufactured without chemicals that are hazardous to health. Our rugs are treated with AZO-free colours and are therefore perfect for bedrooms or children's rooms. The numerous creative designs are versatile and will be an eye-catcher in any room. Our collection offers both simple patterns in natural white and colourful, playful patterns that act as a splash of colour in the room. With these enchanting rugs, the home can be declared a barefoot zone!

Important information at a glance:

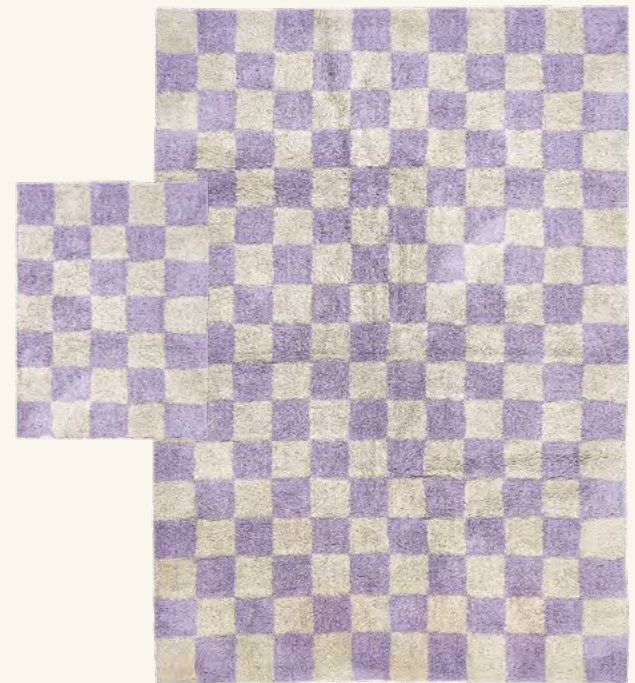

- 100% cotton
- AZO-free colours
- Hand-woven and hand-tufted
- GoodWeave certified
- Suitable for indoor use
- Care: Machine washable at 30°C, do not tumble dry

# Recycled Pet Rugs

To match our indoor | outdoor cushions and blankets, we offer magic rugs made from 100% recycled PET bottles. How does it work? Old PET bottles are shredded, melted and moulded into a wafer-thin thread. This thread is very robust and at the same time we manage to produce amazingly soft textiles with it, so that we are repeatedly asked whether the material is really plastic. And yes, up to 750 PET bottles are used in a 140x200cm carpet. The PET yarn is used to handcraft rugs that not only beautify the interior, but also the patio, balcony or picnic scene. The designs range from simple colour gradients and graphic designs to colourful eye-catchers. We generally offer up to five different sizes for our rugs, but we can also produce customised sizes on request.

Important information at a glance:

- Recycled material (up to 750 PET bottles in a 140x200cm rug!)
- Hand-woven
- GoodWeave certified
- UV-treated colours
- Suitable for indoor and outdoor use
- Care: machine washable at 30°C or garden hose, do not tumble dry

## goodweave | we care !

Our rugs carry the goodweave label, which stands for child labour free certified rugs.

Being a licensed manufacturer, we support the educational programs offered by goodweave as a key to reducing child labour and breaking the cycle of poverty. Goodweave is a non-profit organization that works to end exploitative child labour, inspecting factories and providing rehabilitation and education for former child weavers.

Local goodweave inspectors in nepal and india conduct random visits to the licensed manufacturers, who - when goodweaves strict no-child-labour standards are met - are issued unique, traceable certification labels for their rugs.

Goodweave sponsors programmes for licensed manufacturers and their workers which include trainings on protection against environmental hazards in the workplace, human rights, health, sanitation and family planning.

# Lamps

It is always fascinating to see how a lamp can change the atmosphere of an entire room. Our lamps not only provide light, they also become absolute eye-catchers in a room with their beautiful dreamy designs. They can also be wonderfully combined with each other in different sizes to create a sophisticated ambience. Made by hand from natural materials such as seagrass, rattan and jute, they create warmth and summer vibes all year round. They are also particularly sustainable thanks to the rapidly renewable natural raw materials.

Important information at a glance:

- Particularly sustainable thanks to natural raw materials
- Can be combined with each other
- Handmade in small craft shops in India and Vietnam
- Only lampshades without bulb/cable

‘Liv’ is Danish for ‘life’. To us, Liv means living whole-heartedly. Join us at Liv, where our commitment to sustainable, sensual design is woven into every thread of our work. Through close collaboration with artisans, we craft sensually designed interior products that echo our profound respect for nature and the world we inhabit.

The logo for Liv, featuring the word 'LIV' in a bold, black, sans-serif font. The letter 'L' is stylized with a white, curved shape inside its lower loop.
